

COBYS NEWish CAR

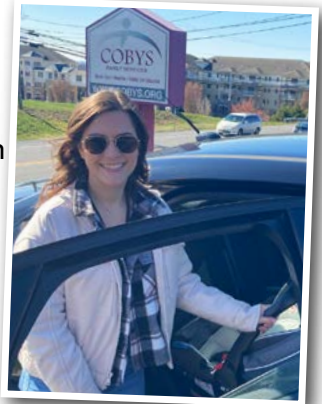

Fundraising Campaign

Campaign
\$25,000
Goal

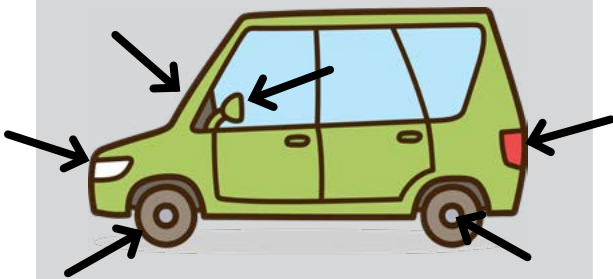

We go the distance for our kids:

- ▶ **COBYS Caseworkers drive thousands of miles each year** to provide care for foster/adoptive children.
- ▶ Care includes twice monthly visits with each child at the foster family home or in the community, medical appointments, court appointments and other types of visits.
- ▶ **Heavy use and a wide geographic service area** (up to an hour away) mean vehicles need to be replaced every few years.

Take “part” in our “drive”

- ▶ **Tires - \$250** (where the rubber meet the road)
- ▶ **Bumper - \$200** (safety device we hope never gets used)
- ▶ **Wiper blades - \$25** (because—spring happens)
- ▶ **Seats - \$90** (self-explanatory)
- ▶ **Brakes/pads - \$75** (so we don't use the bumper)
- ▶ **Battery - \$80** (the spark that gets us started)
- ▶ **Side view mirror - \$300** (to have eyes in the back of our heads)
- ▶ **Steering wheel - \$175** (duh)
- ▶ **Seatbelts - \$50** (fastened and tray tables in upright position)
- ▶ **Air bags - \$250** (Grandma says, “safety first”)

Take “part” - Donate today!

Number Reasons:

Last year:

- **More than 21,000 days of care** were provide to more than 150 children.
- **More than 100 resource families served**, providing safe and loving homes to foster children, with the potential for forever, adoptive homes.
- **More than 20 adoptions** are finalized.
- **More than 60 rounds of child preparation services** to foster children experiencing transitions throughout their foster care journey.

Safety Reasons:

- **We can't have case-workers stranded** on the side of the road while delivering care.
- **Care for kids doesn't stop based on the weather**, so a heavier vehicle like a van or SUV is appreciated.

Our car dealership contacts, believe a lightly used vehicle could be purchased for around \$25,000.
